Please send your completed form with remittance to
The Treasure, Butler Memorial Trust,
End O' Lane, Somertonfield Road, Somerton TA11 6HZ

Coffins must be quickly biodegradable – wicker, bamboo, cardboard and softwood are acceptable. Hardwoods, metals and plastics cannot be used. Shrouds or clothing should be of natural fibre. Bodies may be buried without the use of coffins.

Before requesting a burial at the site please consider the following points relating to the future maintenance of plots.

The site is administered by the Butler Memorial Trust and the aim of the trustees is to provide a more natural, tranquil and environmentally friendly ALTERNATIVE to conventional burial rather than to create a cemetery or a memorial garden.

The burial ground lies within a nature reserve. To facilitate maintenance and to minimise impact on the natural environment (including the visual environment) it is necessary to impose some 'rules' pertaining to the marking and maintenance of plots:

- ANY MARKER placed on the grave must be flat, of wood or natural stone and must not exceed 12" (30cm) in any direction.
- markers must be placed flat on the grave. UPRIGHT MARKERS ARE NOT PERMITTED. This is partly to facilitate maintenance of the site and partly to preserve its unspoiled visual character.
- appropriate NATIVE plants may be planted on graves but please be aware that future maintenance may include mowing or grazing over plots.
- IT MAY ALSO BE NECESSARY TO 'TOP UP' A PLOT THAT HAS SUNK, POTENTIALLY COVERING ANYTHING PLANTED ON THE GRAVE.
Advice should be sought from the Trust if you are unsure what plants are appropriate.
- The burial ground will be maintained by the trust as deemed appropriate as part of the nature reserve and any plants or objects considered inappropriate may be removed.
